Welcome to Maker Faire!

#circusofcreativity aka Maker Faire

The Fredonia Mini Maker Faire is collaboratively produced by the Erie 2-Chautauqua-Cattaraugus BOCES, The State University of New York at Fredonia and MAKE Community. The event is supported by sponsors and donors who believe in the spirit of creativity and the Maker Movement in the region. The Fredonia Mini Maker Faire would not be possible without the financial support of our sponsors and the hearts of our Makers.

Mario "the Maker Magician" will be doing two performances in the Science Center Lecture Room (off of the Lobby). The showtimes are 11 a.m. and 1 p.m. He will have a "Meet and Greet" station located on the map at number 12.

Expect to pay $5 to participate at the soldering station to make a Maker Faire pin- the costs covers the the materials.

Families should plan to visit the new Tinker Toy Community Building Area and the ever popular Electronics Take Apart Room and Cardboard Box Creation Room all in the Williams Center.

The proceeds from the two basket raffles, one in the Science Center and one in the Williams Center, will be used to support next year's Makers Faire. You can also help promote this year's effort by using our social media hashtags.

Enjoy!

This event would not happen without thousands of volunteer hours!
Thank you for Helping us Make this Happen!
